C:\Users\ACER>flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.47.4, on Microsoft Windows [Version 10.0.26200.9445], locale en-ID)
[✓] Windows Version (Windows 11 or higher, 25H2, 2009)
[X] Android toolchain - develop for Android devices
    X Unable to locate Android SDK.
      Install Android Studio from: https://developer.android.com/studio/index.html
      On first launch it will assist you in installing the Android SDK components.
      (or visit https://flutter.dev/to/windows-android-setup for detailed instructions).
      If the Android SDK has been installed to a custom location, please use
      'flutter config --android-sdk' to update to that location.

[✓] Chrome - develop for the web
[X] Visual Studio - develop Windows apps
    X Visual Studio not installed; this is necessary to develop Windows apps.
      Download at https://visualstudio.microsoft.com/downloads/.
      Please install the "Desktop development with C++" workload, including all of its default components
[✓] Connected device (3 available)
[✓] Network resources

```

The screenshot shows an IDE window titled 'silog_app [Administrator]'. The Explorer panel on the left shows the project structure: 'SILOG_APP' containing 'lib' and 'main.dart'. The main.dart file is open in the editor, showing the following code:

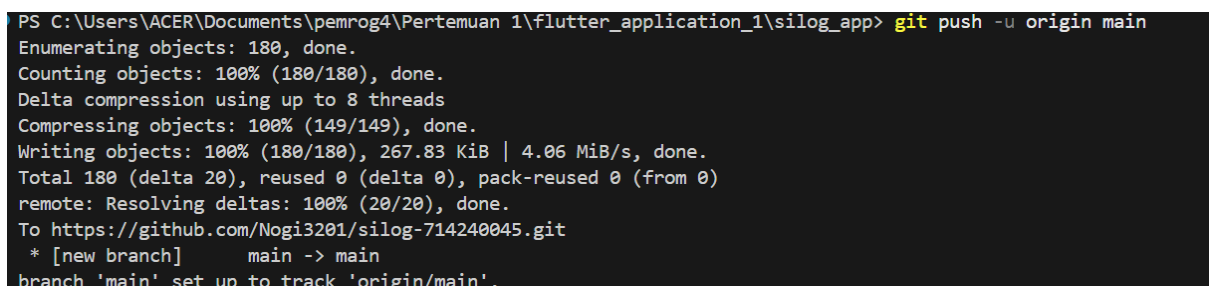

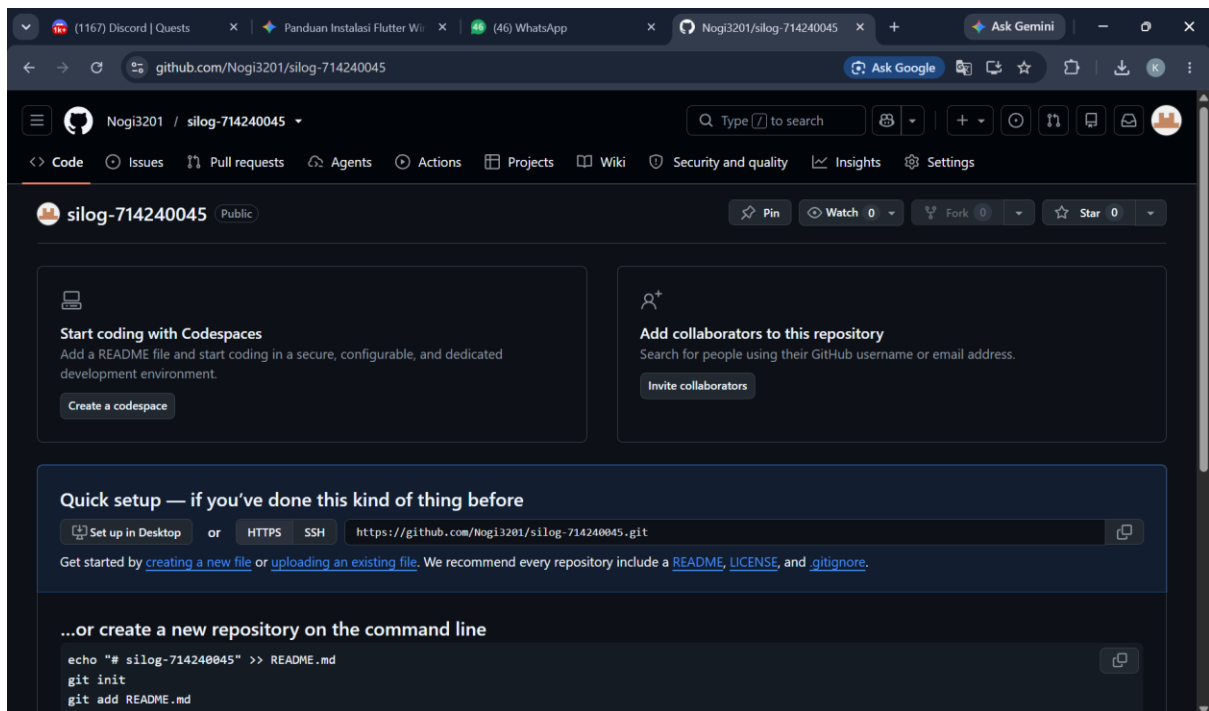

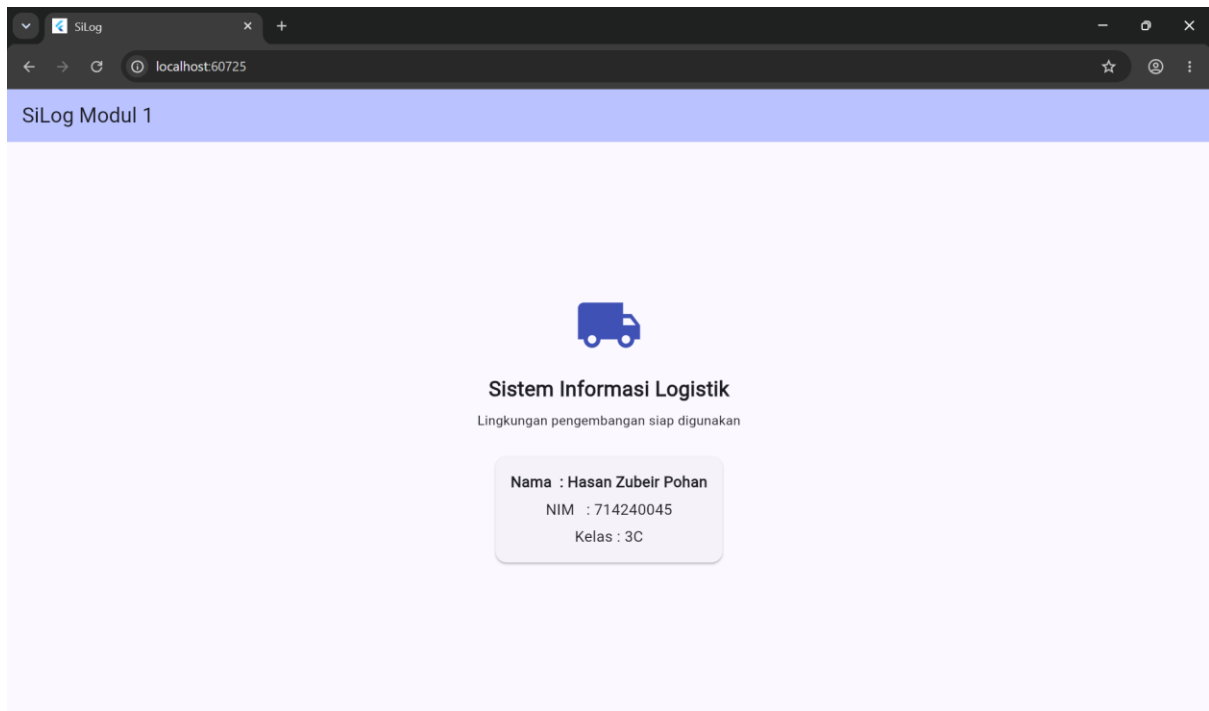

```
lib > main.dart
24 class BerandaPage extends StatelessWidget {
25   Widget build(BuildContext context) {
26     return Scaffold(
27       appBar: AppBar(
28         title: const Text('Silog Modul 1'),
29         backgroundColor: Theme.of(context).colorScheme.inversePrimary,
30       ),
31       body: Center(
32         child: Column(
33           mainAxisAlignment: MainAxisAlignment.center,
34           children: const [
35             Icon(Icons.local_shipping, size: 72, color: Colors.indigo),
36             SizedBox(height: 16),
37             Text(
38               'Sistem Informasi Logistik',
39               style: TextStyle(fontSize: 22, fontWeight: FontWeight.bold),
40             ),
41             SizedBox(height: 8),
42             Text('Lingkungan pengembangan siap digunakan'),
43             SizedBox(height: 24),
44             Card(
45               elevation: 2,
46               child: Padding(
47                 padding: EdgeInsets.all(16.0),
48                 child: Column(
49                   children: [
50                     Text('Nama : Hasan Zubeir Pohan', style: TextStyle(fontSize: 16, fontWeight: FontWeight.bold),
51                       SizedBox(height: 6),
52                     Text('NIM : 714240045', style: TextStyle(fontSize: 16)),
53                     SizedBox(height: 6),
54                     Text('Kelas : 3C', style: TextStyle(fontSize: 16)),
55                   ],
56                 ),
57             ),
58           ],
59         ),
60       ),
61     );
62   }
63 }
```

The screenshot shows the same IDE window, but the Terminal panel is active, displaying the output of the command `flutter run -d chrome`. The output includes the following information:

```
PS C:\Users\ACER\Documents\pemrog4\Pertemuan 1\flutter_application_1\silog_app> flutter run -d chrome
Launching lib/main.dart on Chrome in debug mode...
Waiting for connection from debug service on Chrome... 30.5s

Flutter run key commands.
r Hot reload.
R Hot restart.
h List all available interactive commands.
d Detach (terminate "flutter run" but leave application running).
c Clear the screen
q Quit (terminate the application on the device).

This app is linked to the debug service: ws://127.0.0.1:56453/bqHdHmIBFQ=/ws
Debug service listening on ws://127.0.0.1:56453/bqHdHmIBFQ=/ws
A Dart VM Service on Chrome is available at: http://127.0.0.1:56453/bqHdHmIBFQ=
The Flutter DevTools debugger and profiler on Chrome is available at:
http://127.0.0.1:56453/bqHdHmIBFQ=/devtools/?uri=ws://127.0.0.1:56453/bqHdHmIBFQ=/ws
Starting application from main method in: org.dartlang-app:///web_entrypoint.dart.
Application finished.
PS C:\Users\ACER\Documents\pemrog4\Pertemuan 1\flutter_application_1\silog_app>
```
